Requisitions for Admissions.

Candidates for admission into the Freshman Class are examined in the following or equivalent studies:

Butler's English Grammar, Mitchell's Geography, Robinson's Arithmetic, Robinson's Algebra through Quadratic Equations, Allen & Greenough's Latin Grammar, Leighton's Latin Lessons, Cæsar (four books), six books of Virgil's Æneid, Goodwin's Greek Grammar, White's Greek Lessons.

Candidates for a higher standing are examined in the same studies, and also in that part of the course gone over by the class to which they may desire admission.

All students must bring satisfactory testimonials of good moral character; and those from other Colleges, certificates of dismission in good standing.

Thorough acquaintance with the studies required for admission is indispensably necessary, in order to receive the full benefit of the subsequent College-Course. It is found, by experience, that students imperfectly prepared for the class they enter are embarrassed in their future progress, and seldom repair the want of proper preparatory study.

Day boarding can be obtained at $10 per month. Rooms in the Dormitories free of rent. Board including lodging, washing, lights and fuel, from $12.50 to $20 per month.

PRACTICAL INSTRUCTION.

One great object of the instructor should be to make the scholar practical as well as theoretical. Much is left for the teacher to supply which is not found in the text-books. There is much valuable information which can only be obtained by oral instruction, by experiment and practice. With this view, all Recitation and Lecture will be rather practical than theoretical, and the Theodolite, Compass, Sextant, Telescope, etc., will be employed by the Professor in actual observations and surveys, thus properly enforcing and illustrating Mathematical and Philosophical principles by application.

LIBRARY.

The College Library contains about 2,000 well selected volumes, of both Ancient and Modern Literature. The importance of such a Library to the reading student, during his Collegiate Course, is too obvious to need remark. The Library is accessible to all students.

APPARATUS AND CABINET.

The College possesses a valuable set of Philosophical, Astronomical, and Chemical Apparatus, and also a well-selected Mineralogical and Geological Cabinet. The apparatus includes a Theodolite, Sextant, Compass, Chronometers, Atwood's Machine, Whirling Tables, Electrical Machine Air Pumps, various combinations of the Mechanical Powers, Batteries, Chemical Tests, etc., sufficient for an extended course of observations and experiments.

ALUMNI ASSOCIATION.

There is an annual meeting of the Alumni Association on Tuesday before the first Wednesday in June. At their annual meeting, July 9, 1872, steps were taken to endow a chair in the College, to be called the Alumni Professorship.

LITERARY SOCIETIES.

There are two regular Literary Societies connected with the institution. These are of great utility to young men acquiring a liberal education—improving them in the art of public speaking, making them in some degree familiar with the proceedings of deliberative bodies, and in cultivating systematic business habits. Each Society has convenient hall and well-selected Library—about 1,600 volumes each.

There is a joint Exhibition of the two Societies in the middle of the session, and an Anniversary Exhibition on Tuesday next preceding Commencement.

REPORTS.

Monthly reports are transmitted to the parent or guardian of each student, showing his scholarship and general deportment.

PREPARATORY DEPARTMENT.

In this Department regular hours of *Study and Recitation* are observed under the *immediate* supervision of the Principal. In other respects the members of this Department are subject to the same general regimen and requisitions as the College students. The students in this Department are arranged and taught with special reference to a preparation for College. Public Declamation monthly. An exhibition of select declaimers at the Intermediate Exhibition and on Monday night before commencement. In this Department any student not intending to complete a full Collegiate Course may obtain a thorough English or Commercial Education.

GENERAL INFORMATION.

This College was established by the State of Louisiana in 1825, and was taken under the patronage of the Methodist Episcopal Church, South, in 1845, and has been constantly growing in importance and usefulness. It is located in the village of Jackson, about twelve miles from Bayou Sara, in a grove of pine, magnolia, oak and beech. The location is remarkable for its beautiful woodlands, its unrivaled healthfulness, and rare social advantages.

The government is mild and parental, but consistent and firm. If a student is found to be incorrigibly vicious or idle, he is at once dismissed. The punishment consists of demerit marks, private reproofs, public reproofs, suspension, and expulsion. If a student be expelled or suspended, and the sentence be not revoked, it shall be published in the forthcoming catalogue. The reward consists of merit marks, and public honors on the day of Commencement. So that by every incentive, by appeals to all the nobler principles of the nature, by affectionate entreaty and friendly counsel, by the hope of distinction and the fear of disgrace, the Faculty endeavor to maintain order and the purest morality.

The buildings consist of a commodious Steward's Hall, two brick Dormitories, containing each twenty-four rooms, and a magnificent Center Building. This latter has been erected at an expense of over sixty thousand dollars. It contains a Chapel for public exhibitions, large enough to seat over two thousand persons, two large Society Halls, a Chapel for prayers, eight commodious Recitation Rooms, one Library Room, Cabinet Room, separate rooms for Chemical and Philosophical Apparatus, an office, and other rooms for other purposes.
